SPECIAL COVID-19 NOTES:
YES--the trail is open during the Covid-19 alert, to keep you sane.
YES--you should still keep a 6-foot distance from others, and stay home if you are sick.
Please keep your dog on leash and discourage others from petting him.
Please avoid gathering in groups at the trailhead, viewpoint, etc.
Please use hand wipes after touching handrails on the bridges and stairs
YES--support your favorite bike shop with repair services at this time

JUST FOR LAUGHS IN THESE DIFFICULT TIMES

In 2014, California Dept of Fish and Game visited the Trail near the CA/NV state line to evaluate wildlife habitat. After walking the ground they felt that due to the freeway and railroad being nearby it was not good wildlife habitat. As we left, a big buck stepped out of the sagebrush! Oops!

In 2016 the infamous boulder field at Farad was completed. Watch this fun 2-minute video of how it was done! Bravo to Don Hays and Doug Hulett. https://www.youtube.com/watch?v=_NVz5v7wagg

In 2008, after completion of the Rez Trail, Janet tested the compaction of the road base by “the stiletto test”. There is a lot of force exerted by a 100+ pound woman on a ¼-inch square heel!

In 2011, Bill von Phul and crew conducted a controlled burn near Waltham Way, trying to eradicate invasive white top. As they say on TV, “don’t try this at home”!
